Customers should check this product for safety and adaptability before use. *3 For further product information, please contact the below. *4 Orders for special sizes will be accepted separately.

For industrial applications
Toraysee® MF

Features

Wonderful wiping performance

"TORAYSEE" is used on the palm side. Randomly configured micro fibers contact the surface to take dirt into the cloth.

Comfortable touch

Unlike general gloves, the glove has been designed and sewed in consideration of comfortable feeling. It is comfortable to work with the glove for a long time.

Repeatability

Clean the product, and the wiping ability is recovered. It is ecological and economical by using repeatedly. *Repeatability after cleaning cannot be always guaranteed under all the using conditions. Customers should judge if it can be cleaned or not.
